## EMPOWER OPERATIONS WITH SHIFTCONNECTOR® CLOUD

Get ready for the future with Software-as-a-Service (SaaS) and gain numerous advantages with the private cloud-based variant of Shiftconnector®:

- › **Certified Security**  
Secure your infrastructure with certified data centers and quality management. Experts take care of data security and integrity including encrypted data transfer.
- › **High Performance Infrastructure**  
Benefit from the exceptional response time. We ensure that you have > 99.5% access to real-time data\*
- › **No Infrastructure Cost, but Full Service**  
Save time and resources. We take care of system setup and maintenance – without on-site installation.
- › **Latest Technology**  
Get updates, additional modules, and the best features securely from the cloud. Open pathways to cloud-native technologies, like artificial intelligence (AI).

\*without planned downtime for maintenance and upgrades.

# Gain Cloud-Based Additional Benefits

## › User Experience

Use Shiftconnector® fully on any device.

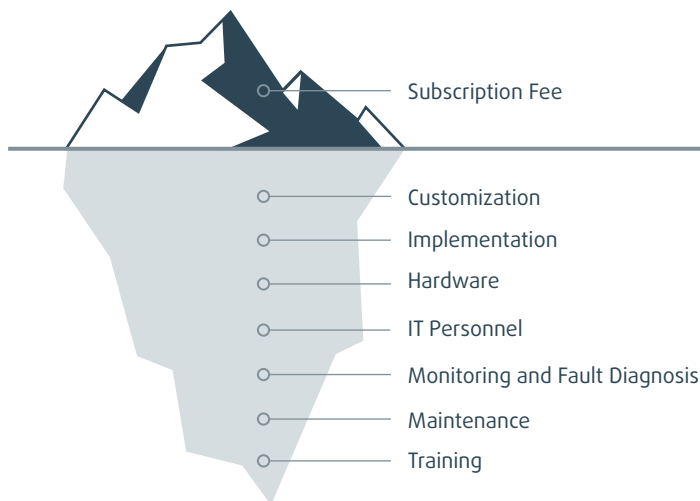

## › Scalability

Adapt your resources quickly and flexibly to your current requirements – without any extra work for your IT department.

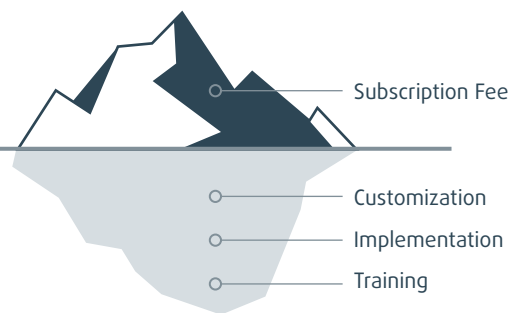

## › Cost Reduction

Lower your costs compared to on-premise solutions – without hidden expenses for servers or maintenance.

## Total cost of ownership of an on-premise solution

## Total cost of a cloud-based solution

**Empower operations with Shiftconnector® Cloud!**

### About eschbach

For over 20 years, we at eschbach have worked with leading companies to provide the smartest digital solution for shift operation. Our people-centric enterprise platform Shiftconnector® helps industrial teams to work more safely, increase efficiency and drive continuous improvement. Global players such as BASF, Albemarle, DuPont and Roche trust in Shiftconnector®.
